PROPOSAL 2: Appointment of Auditors

The Company proposes that KPMG LLP, Chartered Accountants of Vancouver, British Columbia, be appointed as Auditors of the Company for the year ending December 31, 2009 and that the Audit Committee be authorized to fix their remuneration. KPMG LLP has been the Auditors of the Company and its predecessors since 1974. The Audit Committee is satisfied that KPMG LLP meets the relevant independence requirements and is free from conflicts of interest that could impair their objectivity in conducting the Company's audit. The resolution appointing auditors must be passed by a majority of the votes cast by the shareholders who vote in respect of that resolution.

In addition to retaining KPMG LLP to audit the consolidated financial statements of the Company and its subsidiaries for the year ended December 31, 2008, the Company retained KPMG LLP to provide various non-audit services in 2008. The Audit Committee is required to pre-approve all non-audit related services performed by KPMG LLP. The aggregate fees billed for professional services by KPMG LLP and its affiliates around the world during fiscal 2008 and 2007 were as follows:

	<u>Fiscal 2008</u>	<u>Fiscal 2007</u>
Audit Fees.....	\$ 1,190,400	\$ 1,307,000

All Other Fees.....	—	—
Total Fees.....	<u>\$ 1,722,100</u>	<u>\$ 2,211,000</u>

The nature of each category of fees is as follows:

Audit Fees:

Audit fees were paid for professional services rendered by the auditors for the audit and interim reviews of the Company's consolidated financial statements or services provided in connection with statutory and regulatory filings or engagements.

Audit-Related Fees:

Audit-related fees were paid for assurance and related services that are reasonably related to the performance of the audit or review of the Company's financial statements and are not reported under the Audit Fees item above.

Tax Fees:

Tax fees were paid for tax compliance, tax advice and tax planning professional services. These services consisted of: tax compliance including the review of tax returns; assistance with questions regarding tax audits; assistance in completing routine tax schedules and calculations; and tax planning and advisory services relating to common forms of domestic and international taxation (i.e., income tax, capital tax, Goods and Services Tax and Value Added Tax).

The Audit Committee is responsible for the appointment, compensation and oversight of the work of the Company's independent auditor and is required to pre-approve all non-audit related services performed by KPMG LLP. Accordingly, the Audit Committee has adopted a pre-approval policy. The policy outlines the procedures and the conditions pursuant to which permissible services proposed to be performed by KPMG LLP are pre-approved, provides a general pre-approval for certain permissible services and outlines a list of prohibited services.

INTEREST OF CERTAIN PERSONS IN MATTERS TO BE ACTED UPON

None of the directors or senior officers of the Company, none of the persons who have been directors or senior officers of the Company and no associate or affiliate of any of the foregoing has any material interest, direct or indirect, by way of beneficial ownership of securities or otherwise, in any matter scheduled to be acted upon at the Meeting other than as disclosed elsewhere in this Information Circular.

INTEREST OF INFORMED PERSONS IN MATERIAL TRANSACTIONS

Other than as set out herein, to the Company's knowledge, no "informed person" (as defined under Multilateral Instrument 51-102) of the Company, any proposed director of the Company or any associate or affiliate of such persons, has had or has any material interest, direct or indirect, in any transaction since January 1, 2008 or in any proposed transaction which, in either case, has materially affected or is expected to materially affect the Company or any of its subsidiaries.

STATEMENT OF EXECUTIVE COMPENSATION

COMPENSATION DISCUSSION AND ANALYSIS

Composition of the Compensation Committee

The Compensation Committee of the Company currently consists of Messrs. Pitoniak, Zimmerman and Micali. The Board has determined that all three members of the Compensation Committee are independent directors (as defined under applicable securities legislation).

Compensation Discussion and Analysis

The Company's policy with respect to the compensation of the Chief Executive Officer, the Chief Financial Officer and the Company's three most highly compensated executive officers other than the Chief Executive Officer and the Chief Financial Officer (such officers are hereafter collectively called the "Named Executive Officers") is based upon the principles that total compensation must: (1) be competitive in order to help attract and retain the talent needed to lead and grow the Company's business; (2) provide a strong incentive for executives and key employees to work towards the achievement of the Company's goals, including long-term earnings growth and return on invested capital goals; and (3) ensure that the interests of management and the Company's shareholders are aligned and that the compensation packages are fair to senior management, employees, the shareholders and other stakeholders.

The Company's strategy is to pay for performance, with the aim of paying total cash compensation at or above the median (50th percentile) for comparable companies, with top performers achieving total direct compensation above the 75th percentile when the Company over achieves its earnings targets. In addition, the Company believes in pay at risk for the Chief Executive Officer and the other Named Executive Officers, as well as all senior management of the Company. As any employee's responsibility increases, so does the amount of pay at risk, which the Company believes is important for aligning executive compensation with shareholder interests. As employees move to higher levels of responsibility with more direct influence over the Company's strategy and performance, their base salary as a percentage of total direct compensation decreases and they have a higher percentage of pay at risk.

In 2008, the Compensation Committee retained the services of Mercer Canada Ltd. ("Mercer") to conduct a formal review of the Company's executive compensation arrangements. The first step in the review was to define the group of comparable companies against which the Company's compensation practices would be compared and evaluated. The Company has no direct peers in the industrial auction sector, so this step involved defining and developing the methodology for identifying comparable companies. Together with Mercer, the Committee cited net income and market capitalization as the key financial metrics that would define the comparable group of

companies. Net income and market capitalization were chosen because they are the primary financial value produced for the Company's shareholders, and because, in the Committee's and Mercer's view, neither of the Company's key revenue-related metrics would yield meaningful comparisons. Gross auction proceeds would potentially overstate the Company's financial scale, while the Company's auction revenues would potentially understate the complexity and scale of the Company's value creation process and its profitability. Using net income and market capitalization as the key financial metrics, Mercer developed a group of 315 comparable companies, located in both the United States and Canada and across diverse industries.

Mercer concluded that the structure and philosophy of the Company's compensation programs were in line with the identified comparable companies, as to the relative balance of base salary, and short-term and long-term incentive compensation. In general, Mercer found that most Named Executive Officers were receiving total cash compensation in line with market medians for comparable companies, with only the Company's Chief Executive Officer notably below the median. The Compensation Committee and Board of Directors of the Company have since increased the Chief Executive Officer's compensation to reduce this unintended gap.

Apart from Mercer's findings, the Committee in making its determination on executive compensation also took into consideration other factors and information, including, but not limited to, various individual and overall corporate performance reviews and other relevant indicators. The Company paid total fees of U.S.\$28,611 to Mercer in 2008 to complete this engagement. The Company also paid fees of U.S.\$28,142 to Mercer in 2008 to complete a formal review of the Company's compensation program for directors. Apart from the above, the Company has not engaged Mercer for any other services in 2008.

The total cash compensation paid to each of the Chief Executive Officer and the other Named Executive Officers of the Company consists primarily of base salary and an incentive bonus tied to the Company's financial performance, together with amounts earned in accordance with the Company's executive long term incentive plan (the "ELTIP"). All Named Executive Officers also receive annual stock option grants in accordance with the Company's stock option plan (see "Option-based awards – Stock Option Plan" below). The imputed fair value of options granted using the Black-Scholes option pricing model is considered in the determination of total direct compensation, as is the value of benefits and any other perquisites received by a particular individual. The Company believes that the mix of base salary, performance-based bonus and participation in the ELTIP and stock option plan creates a balanced approach to executive compensation consistent with the compensation principles of the Company stated above.

The CEO's total direct compensation was comprised of the following components in 2008, which are described in more detail in the discussion below:

Component of CEO's Direct Compensation	Amount (U.S.\$)	Percentage	Metric
Base salary.....	\$ 504,000	36%	Set by Committee.
Short term incentive bonus award	250,000	18%	Formula driven based on Company earnings performance compared to Board approved target (see below).
Executive long-term incentive plan award	100,000	7%	Maximum award (see below).
Stock options – fair value (earned in 2008; granted in 2009).....	555,000	39%	100% of year end base salary (see below).
Total direct compensation.....	\$ 1,409,000		82% of the 50 th percentile for comparable companies.

Apart from considering the salary levels of comparable executives with similar responsibilities and experience at comparable companies, in determining the base salary and other compensation received by the Chief Executive Officer, the Compensation Committee took into consideration the individual performance of the Chief

Executive Officer and the Company's overall performance for the year, and completed a detailed assessment of these factors for presentation to the Board. These considerations included the Company's net pre-tax earnings performance for the year measured against the earnings target set out below, the return on invested capital performance for the year, and the Chief Executive Officer's achievement of strategic objectives as outlined in the Company's strategic plan, as well as the achievement of various individual performance objectives. The Chair of the Compensation Committee also interviewed all officers of the Company who directly report to the Chief Executive Officer to provide a full 360-degree view of his performance.

Base salary levels for the Named Executive Officers other than the Chief Executive Officer have been determined primarily on the basis of (i) the Compensation Committee's review of the Chief Executive Officer's assessment of each Named Executive Officer's individual performance; (ii) the scope of each executive's job responsibilities; and (iii) the Compensation Committee's understanding of normal and appropriate salary levels for executives with responsibilities and experience comparable to those of the Named Executive Officers of the Company. In making such determination, external sources are consulted when deemed necessary by the Compensation Committee, including the Mercer review described above.

The aggregate executive incentive bonus pool amount is linked directly to a formula that provides for specified increases in the bonus pool amount as pre-tax earnings (adjusted to exclude amounts not considered part of the Company's normal operations) approach the target level established by the Compensation Committee and approved by the Board of Directors at the beginning of the year, and for accelerated increases in the bonus pool if adjusted pre-tax earnings exceed the target level. Pre-tax earnings are chosen as the metric for executive incentive bonus because pre-tax earnings directly drives shareholder value through earnings per share and are an element over which executives of the Company can have the most direct influence by their performance. The pre-tax earnings target for purposes of the 2008 incentive bonus calculation was \$133.6 million. At that level, the bonus pool available to the participants in the executive incentive bonus program (being vice-presidents and above) would have been equal to 50% of their combined base salaries. The amount of such bonuses is not subject to any minimum amount but is subject to a maximum of 150% of the combined base salaries of the participants. The Company achieved adjusted pre-tax earnings of \$131.2 million for 2008, or 98% of the earnings target, resulting in approximately 46% of the combined salaries of the participants being paid into the executive incentive bonus pool.

The actual allocation of incentive bonus amounts to participants in the executive bonus pool is based on a process involving peer reviews and individual performance reviews of such executives by the Chief Executive Officer. A similar formula is used to calculate a portion of the Chief Executive Officer's annual bonus award. The Compensation Committee undertook a formal evaluation process involving interviews with members of senior management and a review of performance targets and objectives of the Chief Executive Officer to determine the remainder of his bonus for 2008. This allocation approach involving peer reviews and performance reviews reflects the Company's belief that overall success of the Company is driven by individual performance together with good teamwork.

The Chief Executive Officer and other Named Executive Officers also participate in the Company's ELTIP. The fundamental purpose of the ELTIP is to facilitate senior management's direct investment in and ownership of Common Shares. All participants in the Company's ELTIP may choose to contribute up to 100% of their performance bonus to the ELTIP and the Company agrees to pay to participants an additional cash bonus award that equals the amount of their contributions under the ELTIP that year, subject to a maximum payment of U.S.\$100,000 for each of the Named Executive Officers. Please refer to the "Executive Long Term Incentive Plan" section below. In addition, all the Named Executives are participants under the Company's stock option plan and the Compensation Committee determines whether to grant options to the Chief Executive Officer and the other Named Executive Officers each year based on corporate performance, individual officer performance and their level of responsibilities. The Company believes that participation in the Company's ELTIP and stock option plan aligns the interest of executives of the Company with those of the shareholders.

The Committee regularly reviews the relative emphasis of each of the various components of compensation for senior executives referred to above to ensure that the structure of the Company's executive compensation meets the desired results and objectives of the Company's executive compensation philosophy and provides the appropriate level of reward for past performance and incentive for future work and development.

Based on the work performed by Mercer during the current and prior years, the Board of Directors has approved certain changes to the Company's executive compensation program starting in 2009. The changes relate mainly to the non-salary components of total direct compensation and are primarily as follows:

- Changes to the executive incentive bonus – the target incentive bonus pool for executives will include 60% of the combined salaries of Executive Council members (Senior Vice Presidents and above), up from 50% prior to 2009. The reason for this change is to allow for further differentiation of the contributions of Executive Council members in relation to strategy design and execution. In addition to this change, the cap on the executive incentive bonus pool will increase to 200% of the combined base salaries of participants, up from 150%. The maximum incentive bonus pool would be earned if the Company achieved 125% of its earnings target (based on the 2008 earnings target).
- Changes to the ELTIP – please see the discussion below in the Executive Long Term Incentive Plan section.
- Stock option grants – in addition to the changes outlined below under the Stock Option Plan section, stock option grants will now be set at a specified percentage of each executive's base salary. For Vice Presidents this percentage will be 30% of each participant's base salary and for Senior Vice Presidents the amount will be 60% of base salary. The Chief Executive Officer, President and Chief Operating Officer will be entitled to total stock option grants of at least 80% of each of their base salaries, with increases beyond this percentage at the discretion of the Compensation Committee and Board.

The Compensation Committee has reviewed and discussed this discussion and analysis with the Board of Directors and management and is satisfied that it fairly and completely represents the philosophy, intent, and actions of the Compensation Committee with regards to executive compensation.

Option-based awards

Stock Option Plan

The Company has a stock option plan that provides for the award of stock options to employees, directors and officers of the Company and to other persons approved by the Compensation Committee. The Company obtained shareholder and applicable regulatory approval to amend and restate the stock option plan in April 2007 (the amended and restated plan is referred to hereunder as the “stock option plan”).

As of the date of this Information Circular, the maximum number of Common Shares reserved for issuance from the effective date of the amendment and restatement of the stock option plan is 10,200,000 Common Shares (after reflecting the 3 for 1 stock split on April 24, 2008), of which 848,320 Common Shares (being less than 1% of total issued and outstanding shares) have been issued, 2,461,634 Common Shares are reserved for issuance upon exercise of options that have been granted (2% of total issued and outstanding shares) and 6,890,046 Common Shares (7% of total issued and outstanding shares) remain available for future options to be granted.

Stock options are granted at the closing market price of the Common Shares on the NYSE as of the grant date. Under the stock option plan, the maximum number of Common Shares issued and reserved for issuance to non-executive Directors of the Company upon exercise of options must not exceed 0.3% of the issued and outstanding Common Shares. The number of Common Shares issued to “Insiders” under the stock option plan, when combined with the Company’s other security-based compensation arrangements, within any one-year period cannot exceed 10% of the issued and outstanding Common Shares, and the number of Common Shares issuable to Insiders at any time cannot exceed 10% of the issued and outstanding Common Shares.

Options granted under the stock option plan are subject to vesting conditions imposed by the Compensation Committee as set out in the relevant option agreements. For options granted under the stock option plan before December 31, 2008, the Compensation Committee has generally provided in option agreements that options are subject to vesting one year from the grant date and are not transferable. Furthermore, for options granted before December 31, 2008, the Compensation Committee has generally provided in option agreements that the options will expire on the earlier of:

- (a) 10 years from the date of grant;
- (b) 30 days from the date on which the optionee ceases to be employed by, or provide services to, the Company;
- (c) 180 days from the date of death if the optionee’s employment or eligibility ceases by reason of his or her death or if the optionee dies prior to the expiration of the 30-day period described in clause (b) above; or,
- (d) immediately upon termination if the termination of employment is with cause.

The stock option plan has provisions that take into account the Company’s policy with respect to making grants only during specific trading windows and if the expiry date of an option falls during a “Black Out Period”, the expiry date will be extended to the fifth business day following the expiry of such period.

On February 24, 2009 the Company's Board of Directors approved certain amendments to the Company's stock option grant practices. Unless otherwise determined by the Compensation Committee, options granted after this date to the Company's Vice Presidents and above will generally vest equally over three years from the grant date. All options granted after this date will have a term of 10 years from the date of grant subject to the following:

- (a) in the case of termination without cause (excluding voluntary termination) – immediate vesting of all unvested options and the optionee will have 90 days from the date on which the optionee ceases to be employed by the Company to exercise all options;
- (b) in the case of voluntary termination (other than retirement) – immediate cancellation of all unvested options and the optionee will have 90 days to exercise vested options;
- (c) in the case of retirement – all unvested options will continue to vest after retirement in accordance with the existing vesting schedule for those particular options and all options will expire on the earlier of three years from the date of retirement and the option 10-year expiry date;
- (d) in the case of death – all unvested options will vest immediately and the optionee's legal representative will have 365 days from the date of death to exercise the options if the optionee's employment or eligibility ceases by reason of his or her death or if the optionee dies prior to the expiration of the periods described in clauses (a), (b) and (c) above; or,
- (e) in the case of termination with cause – all options will expire immediately upon termination.

Options granted to non-executive employees after February 24, 2009 will generally continue to be subject to vesting one year from the grant date and will also be subject to the new termination provisions described above. Furthermore, stock option agreements for options granted after February 24, 2009 generally provide that the Compensation Committee may shorten the vesting period if the Compensation Committee considers doing so would be in the best interest of the Company.

The stock option plan also provides that the Compensation Committee has the right to suspend, amend or terminate the stock option plan without approval of optionees or shareholders (provided that no such suspension, amendment or termination will materially prejudice the rights of any optionee under any previously granted option without the consent or deemed consent of such optionee), including, without limitation:

- (a) to avoid any additional tax on optionees under Section 409A of the United States Internal Revenue Code or other applicable tax legislation;
- (b) to change the eligibility for and limitations on participation in the stock option plan (other than participation by non-executive Directors in the stock option plan);
- (c) to make any addition to, deletion from or alteration of the provisions of the stock option plan that are necessary to comply with applicable law or the requirements of any regulatory authority or stock exchange;
- (d) to make any amendment of a typographical, grammatical, administrative or clerical nature, or clarification correcting or rectifying any ambiguity, defective provision, error or omission in the stock option plan; and
- (e) to change the provisions relating to the administration of the stock option plan or the manner of exercise of the options, including:
 - (i) changing or adding any form of financial assistance provided by the Company to the participants that would facilitate purchase of Common Shares under the stock option plan; and

- (ii) adding provisions relating to a cashless exercise (which will provide for a full deduction of the underlying Common Shares from the maximum number reserved under the stock option plan for issuance).

However, the following amendments to stock option plan can only be made with shareholder approval:

- (a) any increase in the maximum number of Common Shares that may be issued pursuant to the exercise of options granted under the stock option plan;
- (b) any reduction in exercise price or cancellation and reissue of options;
- (c) any amendment that extends the term of an option beyond the original 10 year expiry date;
- (d) any amendment to “Eligible Participants” that may permit the introduction or reintroduction of non-executive Directors on a discretionary basis, if at any time, the stock option plan is further amended to exclude participation by non-executive Directors;
- (e) any amendment that increases limits previously imposed on non-executive director participation;
- (f) any amendment that would permit equity based awards granted under the stock option plan to be transferable or assignable other than for normal estate settlement purposes;
- (g) any amendment to increase the maximum limit of the number of securities that may be issued to insiders of the Company within any one year period or issuable to insiders of the Company at any time under the stock option plan, or when combined with all of the Company’s other security based compensation arrangements, which could exceed 10% of the total issued and outstanding Common Shares of the Company;
- (h) any addition of provisions relating to a cashless exercise (other than a surrender of options for cash) that does not provide for a full deduction of the underlying Common Shares from the maximum number reserved for issuance under the stock option plan; and
- (i) any amendment to the amending provisions of the stock option plan.

The following table sets out the number of securities authorized for issuance under the Company’s stock option plan as of December 31, 2008:

	Number of Securities to be Issued upon Exercise of Outstanding Options (A)	Weighted-Average Exercise Price of Outstanding Options	Number of Securities Remaining Available for Future Issuance under Equity Compensation Plans (Excluding (A))
Equity compensation plans approved by security holders – stock option plan	2,473,634 (2% of total issued and outstanding shares)	\$14.23	6,890,046 (7% of total issued and outstanding shares)

Equity-based Compensation Awards Grant Policy

The Company’s Board of Directors has adopted a Policy Regarding the Granting of Equity-Based Compensation Awards (the “Policy”), the terms of which establish guidelines for the granting of options to purchase Common Shares to the Named Executive Officers and other employees of the Company. Under the provisions of the Policy, only the Compensation Committee of the Company’s Board of Directors can authorize the granting of stock options to the Named Executive Officers and other executives of the Company.

The Policy establishes an annual date for the granting of stock options, which falls on the fifth business day following the release of the Company's results for the most recently completed fiscal year. The Policy prohibits the granting of stock options during black out periods, as defined in the Company's Policy Regarding Securities Trades by Company Personnel. The Compensation Committee has delegated to the Chief Executive Officer the authority to grant options to purchase up to 150,000 Common Shares of the Company per year to Company employees, provided no one individual is granted more than 45,000 options and provided options are not granted to employees at the Vice-President and above level. Option grants by the Chief Executive Officer must fall within the Company's established trading windows. All stock options granted in accordance with the Policy must have an exercise price equal to the closing price of the Company's Common Shares on the New York Stock Exchange on the date of grant.

The Policy is subject to changes and amendments as deemed appropriate by the Board of Directors from time to time.

(1) All of these awards were granted in accordance with the Company’s stock option plan in 2007.

(2) The non-equity incentive plan compensation relates to amounts earned in 2008 and paid in 2009 in accordance with the Company’s executive incentive bonus plan, as described above in the Compensation Discussion and Analysis.

Executive Long Term Incentive Plan

The Company’s ELTIP encourages senior employees and officers of the Company to use performance bonus payments to purchase and hold Common Shares through the administrator of the plan. The ELTIP does not involve any issuance of Common Shares from the Company, and the Common Shares so purchased are held in trust by the administrator on behalf of the participant.

Under the ELTIP applicable for awards earned in 2008 and paid in 2009, a participant could choose to contribute up to 100% of his performance bonus to the ELTIP and the administrator would use such contribution to acquire Common Shares in open market purchases on the NYSE during a specific period within the first trading window of the relevant fiscal year, as provided for under the Company’s Policy Regarding Securities Trades by Company Personnel. ELTIP participants also agree not to withdraw any Common Shares so held by the administrator unless a certain event occurs or certain conditions are satisfied (e.g. the termination, retirement or resignation of the participant). Participants in the ELTIP are subject to share ownership guideline requirements depending on their level of seniority with the Company. Under such guidelines, participants are required to accumulate ownership of Common Shares held under the ELTIP with a minimum share value equal to a specified multiple of such person’s relevant base salary. The specified multiple for senior officers who are members of the Executive Council is three times the participant’s base salary; two times for participants who are Vice-Presidents (or equivalent) but not members of the Executive Council; and one times base salary for participants who are Divisional Managers (or equivalent).

Under the ELTIP applicable for awards earned in 2008 and prior years, the Company would pay to participants an additional cash bonus award that equaled the amount of their contributions under the ELTIP that year, subject to a maximum payment of U.S.\$100,000 for senior executives, including the Named Executive Officers.

On February 24, 2009 the Company’s Board of Directors approved certain amendments to the Company’s ELTIP for awards earned in 2009 and subsequent years. The purpose of these changes was to de-couple the ELTIP from the Company’s short-term incentive plan and to increase the alignment of the ELTIP with the long-term interests of shareholders of the Company.

ELTIP entitlement for all participants will be earned by reference to the Company’s pre-tax return on invested capital (“ROIC”) on a rolling three-year basis. Each participant’s ELTIP amount will be based on a straight-line calculation, with entitlement starting when 70% of the ROIC target is achieved; 100% of the ELTIP entitlement will be earned when the ROIC target is fully achieved. The approved ROIC target for 2009 to 2011 (inclusive) is 20% (before tax). No entitlement will be earned if the Company’s rolling three-year ROIC falls below 14%.

These amendments were intended to decouple the ELTIP from the Company's incentive bonus plan, meaning that participants in the ELTIP will be allowed to contribute their own funds to the ELTIP in the event their incentive bonus is not sufficient to achieve the full Company matching amount under the ELTIP. This means that ELTIP participants will receive the maximum payment in each year that the rolling three-year ROIC target of 20% is exceeded regardless of their actual bonus. In addition, ELTIP entitlement will carry forward for one year – if a participant chooses not to participate in one year, they may use that entitlement the following year, together with the entitlement earned in that year. Any unused entitlement expires automatically after one year.

In addition to the changes outlined above, commencing in 2009, Executive Council members will be entitled to a maximum ELTIP matching payment of U.S.\$125,000, to reflect their more prominent role in the development and execution of the Company's strategy. Furthermore, the Board has asked management to look into alternative investments other than Company stock, with the expectation that in 2010 and future years, 25% of the ELTIP funds would be invested by the administrator in another investment option. The purpose of this change is to diversify the ELTIP participants' investment portfolios while still maintaining alignment of their interests with Company shareholders.

The Company believes that the ELTIP, together with the Share Ownership Guidelines adopted by the Company, will facilitate the alignment of the interests of the senior employees and officers of the Company with those of the Company's shareholders by promoting ownership of Common Shares by senior employees and officers and rewarding the creation of shareholder value over the long term.

Long Term Incentive Plan for Non-Executive Directors

The Company adopted a long-term incentive plan for non-executive directors in 2009 (the "Non-Executive Director LTIP"). Under this plan, all non-executive directors will use part of their annual retainer to purchase and hold Common Shares through the administrator of the plan. The Non-Executive Director LTIP involves open market purchases rather than issuances of Common Shares from the Company, and the Common Shares so purchased are held by the administrator on behalf of the participant.

Under the Non-Executive Director LTIP, the administrator would use such contributions to acquire Common Shares in open market purchases on the NYSE during a specific period within the first trading window of the relevant fiscal year, as provided for under the Company's Policy Regarding Securities Trades by Company Personnel. Participants also agree not to withdraw any Common Shares so held by the administrator unless a certain event occurs or certain conditions are satisfied (e.g. the termination, retirement or resignation of the participant as a director of the Company). The Company believes that the Non-Executive LTIP will further facilitate the alignment of the interests of the directors with those of the shareholders of the Company.

Termination of Employment, Changes in Responsibility and Employment Contracts

The Company, through wholly-owned operating subsidiaries, has an employment agreement with each of the Named Executive Officers. All such employment agreements may be terminated with eight weeks notice (or less in certain circumstances) or payment in lieu thereof.

The Company maintains directors and senior executives liability insurance which, subject to the provisions contained in the policy, protects the directors and senior executives, as such, against certain claims made against them during their term of office. Such insurance provides for an aggregate of U.S.\$20 million annual protection against liability (less a deductible of U.S.\$750,000 for securities claims and U.S.\$250,000 for other claims) and U.S.\$10 million of excess coverage for directors only. Any such revocation will have effect only in respect of those matters upon which a vote has not already been cast pursuant to the authority conferred by a previously deposited proxy.

Voting of Shares Represented by Proxy

A proxy in the form of the enclosed form of proxy will confer discretionary authority upon the proxyholder named therein with respect to the matters identified in the enclosed Notice of Meeting and in the form of proxy for which no choice is specified (and with respect to amendments and variations thereto and any other matter that may properly be brought before the Meeting).

If the instructions as to voting indicated on a proxy in the enclosed form and deposited as provided for herein are certain, all of the shares represented by such proxy will be voted or withheld from voting in accordance with the instructions of the shareholder on any ballot that may be called for. If the shareholder specifies a choice in the proxy as to how such shareholder's shares are to be voted with respect to any matter to be acted upon, the shares will be voted accordingly.

If no choice is specified by a shareholder in a proxy in the form of the enclosed form of proxy and one of the persons named in the enclosed form of proxy is appointed as proxyholder, the shares represented by the proxy will be voted "FOR" each of the director candidates nominated by the Board and "FOR" each of the other matters identified therein.

Amendments or Variations and Other Matters

Management of the Company is not now aware of any amendments to or variations of any of the matters identified in the enclosed Notice of Meeting nor of any other matter which may be brought before the Meeting. **However, a proxy in the form of the enclosed form will confer discretionary authority upon a proxyholder named therein to vote on any amendments to or variations of any of the matters identified in the enclosed Notice of Meeting and on any other matter which may properly be brought before the Meeting in respect of which such proxy has been granted.**

Validity of Proxy

A form of proxy will not be valid unless it is dated and signed by the shareholder or by the shareholder's attorney duly authorized in writing. If the proxy is not dated, it will be deemed to bear the date on which it is mailed by the management of the Company to the shareholders. In the case of a shareholder that is a corporation, a proxy will not be valid unless it is executed under its seal or by a duly authorized officer or agent of, or attorney for, such corporate shareholder. If a proxy is executed by an attorney or agent for an individual shareholder, or by an officer, attorney, agent or authorized representative of a corporate shareholder, the instrument empowering the officer, attorney, agent or representative, as the case may be, or a notarial copy thereof, must be deposited along with the proxy. If the shares are registered in the name of more than one owner (for example, joint ownership, trustees, executors, etc), then all those registered should sign the proxy. The form of proxy should be signed in the exact manner as the name appears on the proxy.

A vote cast in accordance with the terms of a proxy will be valid notwithstanding the previous death, incapacity or bankruptcy of the shareholder or intermediary on whose behalf the proxy was given or the revocation of the appointment, unless written notice of such death, incapacity, bankruptcy or revocation is received by the Chairman of the Meeting at any time before the vote is cast.

Deposit of Proxy

In order to be valid and effective, an instrument appointing a proxy holder must be deposited with Computershare Trust Company of Canada, Proxy Department, 100 University Avenue, 9th Floor, Toronto, Ontario, M5J 2Y1, no later than 48 hours (excluding Saturdays, Sundays and holidays) before the time of the Meeting or any adjournment thereof.

Non-registered Shareholders

Non-registered shareholders whose shares may be registered in the name of a third party, such as a broker or trust company, may exercise voting rights attached to shares beneficially owned by them. Applicable securities laws require intermediaries to seek voting instructions from non-registered shareholders. Accordingly, unless a non-registered shareholder has previously instructed their intermediaries that they do not wish to receive materials relating to shareholders' meetings, non-registered shareholders should receive or have already received from their intermediary either a request for voting instructions or a proxy form. Intermediaries have their own mailing procedures and provide their own instructions. These procedures may allow voting by telephone, on the Internet, by mail or by fax. If non-registered shareholders wish to attend and vote the shares owned by them directly at the Meeting, such non-registered holders should follow the procedures in the directions and instructions provided by or on behalf of the intermediary. For example, these non-registered shareholders can insert their name in the space provided on the request for voting Instructions or proxy form or request a form of proxy which will grant the non-registered holder the right to attend the meeting and vote in person. Non-registered shareholders should carefully follow the directions and instructions of their intermediary, including those regarding when and where the completed request for voting instructions or form of proxy is to be delivered.

Only registered shareholders as of the close of business on March 6, 2009 (the record date for voting at the Meeting) have the right to vote in person at the Meeting or to execute, deliver or revoke a proxy with the Company in respect of voting at the Meeting.

The Company has not sent any proxy-related materials that solicit votes or voting instructions directly to any non-registered shareholders. Non-registered shareholders who wish to vote or change their vote must, in sufficient time in advance of the Meeting, arrange for their intermediaries to make necessary voting arrangements, change the vote and, if necessary, revoke the relevant proxy.
