**...AND MUCH MORE!**

In 2006 Hy-Way Construction Inc. started as a small, family-run sewer and water construction company in Steinbach, Manitoba. The company began as a single crew of about 10 - 12 people with a few pieces of equipment, and grew to a construction company with dozens of pieces of equipment and employed upwards of 50 workers during some of its busier seasons. With that growth, there weren't too many areas of civil construction that Hy-Way didn't venture into, including subdivision development, lagoon construction, water/sewer renewals, culvert jacking, road building & more. While Hy-Way was based in southeast Manitoba, it went wherever the work was, including all over Manitoba, and even venturing into Saskatchewan. No matter the job, the company always treated its customers as priority one. Hy-Way would like to thank and wish the best to all the sub-contractors, suppliers, consultants and various other organizations it has worked with over the past 14 years.

*Thank you,  
Judy Pichlyk · Justin Pichlyk  
Jeremy Morken · Darrell Doerksen*
