Importation and related obligations

BONDED YARD

The auction is conducted in a bonded yard. Certain items identified in the sale day listing catalogue, or otherwise announced at the auction, as "Non-Duty-Free Circulation EU" have not been entered into the European Union. It is the purchaser's responsibility to satisfy requirements of any kind in respect to the importation of any items into the European Union, or any other country. Such responsibility includes compliance with laws and regulations of the country including payment of taxes and duties, obtaining proper approvals, and complying with any other requirements. The purchaser will engage his own broker. Ritchie Bros. will not charge Value Added Tax (VAT) on these lots if properly cleared. Nominal documentation charges to the buyer for clearing the Bonded Yard will apply.

Those items that have not been imported into the EU and are, therefore, not exempted from EU duty will be identified in this catalogue and on the item itself as "Non-Duty-Free Circulation EU".

In order to help buyers, determine what documentation is available for a particular item, we have used colored stickers as a guide. Please note that THEY SERVE AS GUIDELINES ONLY and in no way diminish the buyer's responsibility to inspect items prior to purchase. Check with the customs agent Broekman Logistics.

RED: "NOT DUTY FREE CIRCULATION EU" means that this item has not been imported into the European Union. Taxes and customs processing are the responsibility of the buyer.

The visitor of the auction agrees and undertakes that items purchased for importation into any country will be imported in compliance with the laws and regulations of that country, including, but not limited to, those in respect of manufacturers' approvals or other requirements such as safety, environmental, acoustical, intellectual property and/or local dealers' permissions. Ritchie Bros. makes no representation or warranty that items offered in the auction are importable into any particular country and does not accept any liability that some items in this auction may not be importable into a particular country. Please check with your own importation specialist prior to bidding.

EUROPEAN UNION MACHINERY DIRECTIVE

Effective January 1st, 1995. Bidder acknowledges that some items in the sale may not, or no longer, conform to the terms of the EU Directive on Machinery as implemented in the National Legislation of the relevant Member Country. Bidder shall determine to its satisfaction as to whether or not any lot is in conformity.

Be advised that CE marking is mandatory for certain product groups within the European Economic Area (EEA). Certain items in this auction may require additional CE-marking measures if imported into the EEA. Any items in the sale that are not CE-marked are offered for sale for export outside of the EEA. If any buyer nevertheless intends to sell or use such item within the EEA, buyer will take the necessary measures to certify and/or upgrade the item, if and as required under the relevant European Union Legislation (such as the Machinery

Directive) implemented in the national legislation of the relevant member countries. The buyer is responsible for all documentation and costs related to such certification and upgrading. Please contact the manufacturer or his authorized representative within the EU for details.

Be advised that for items in an auction, supporting documentation regarding CE may only be available as mentioned in the "Comes With" part of the lot description.

Announcements regarding CE Certificates will be as follows:

If we have Original CE: ** ORIGINAL CE CERTIFICATE AVAILABLE **

If we have CE Copy: ** CE CERTIFICATE COPY AVAILABLE **

If we do not have Original CE nor Copy: No note.

B.V. as mandatory export agent** and are required to pay a deposit on all items for export bought at the auction. Please confirm your chosen shipping company by sending us an e-mail at moerdijkmail@rbauction.com.
