Summary

Thank you for subscribing to the Ritchie Bros. monthly Market Trends Report! With our first report of the year, we are highlighting construction and aerial equipment sales throughout 2022.

As outlined in past editions of the Market Trends Report, equipment sales volumes declined through the pandemic, due to supply chain disruptions, as well as a variety of other sector-specific issues. However, since 2021 we have seen volumes rebound for medium earthmoving and aerial equipment, while large earthmoving equipment sales continue to decline, in the United States anyways.

In 2019, Ritchie Bros. sold approximately 13,000 large earthmoving equipment items in the U.S.—in 2022, that number dropped below 10,000. One reason for this continued decline has been the rise in popularity of medium and compact earthmoving equipment, like mini excavators and multi-terrain loaders.

One of the most significant changes we've seen in recent years is the decline in large excavator volumes sold in the U.S. In 2021, we saw a 10% decline in large

excavator volumes. In 2022, we saw a further 25% decline. At the same time, we are seeing multi-terrain loader and mini excavator volumes increase. In Q4 2022 we sold approximately 900 multi-terrain loaders in the U.S., which is close to double what we sold in Q4 2021. These compact units are extremely versatile and in high demand amongst buyers.

In Canada, with lower overall volumes, the change hasn't been as drastic, which can be seen in the fairly smooth blue lines on pages 3 to 5 of this report. We still experienced overall volume declines in Canada through the pandemic, but not on the same scale as we did in the U.S. In fact, there were pockets of growth in Canada. In Q4 we saw hydraulic excavator volumes and prices increase in Canada.

Looking through the charts of our main feature, we also see volume and price increases for articulated dump trucks in Canada, as well as for telehandlers and forklifts.

Start digging through our data today to find the trends that will help your business tomorrow.

Summary

Price index update

After our main feature, we turn to our individual industry indexes.

In the United States, Ritchie Bros.' mix-adjusted price indexes for the three months ending December 31, 2022, show that prices for used large earthmoving equipment is flat year over year, while all other regular indexes show declining prices, including truck tractors, vocational trucks, and aerial equipment.

Price indexes in Canada are currently outperforming those in the U.S., with truck tractors and large earthmoving prices up 4% year over year and medium earthmoving up 1%, while all other regular indexes show declining prices.

But what about the retail market?

As with previous reports, we have included retail commentary and charts from Rouse Services on pages 31 – 34 of this report. According to Rouse, we are seeing slower-than-typical sales volumes for private retail channels. For more definitive equipment valuations and market insights encompassing the retail and auction markets, contact Rouse Sales at info@rousesales.com.

Doug Olive, SVP, Pricing

On the Ritchie Bros. auction market...

"Through the pandemic we saw earthmoving and aerial equipment volumes decline due to supply chain disruptions and other sector-specific issues. We are now seeing these volumes rebound for most equipment categories, however large earthmoving equipment volumes in the United States continue to decline. Compact earthmoving equipment is becoming more versatile and popular, resulting in a significant decline in U.S. large excavator sales. We will be monitoring to see if this trend continues in 2023."

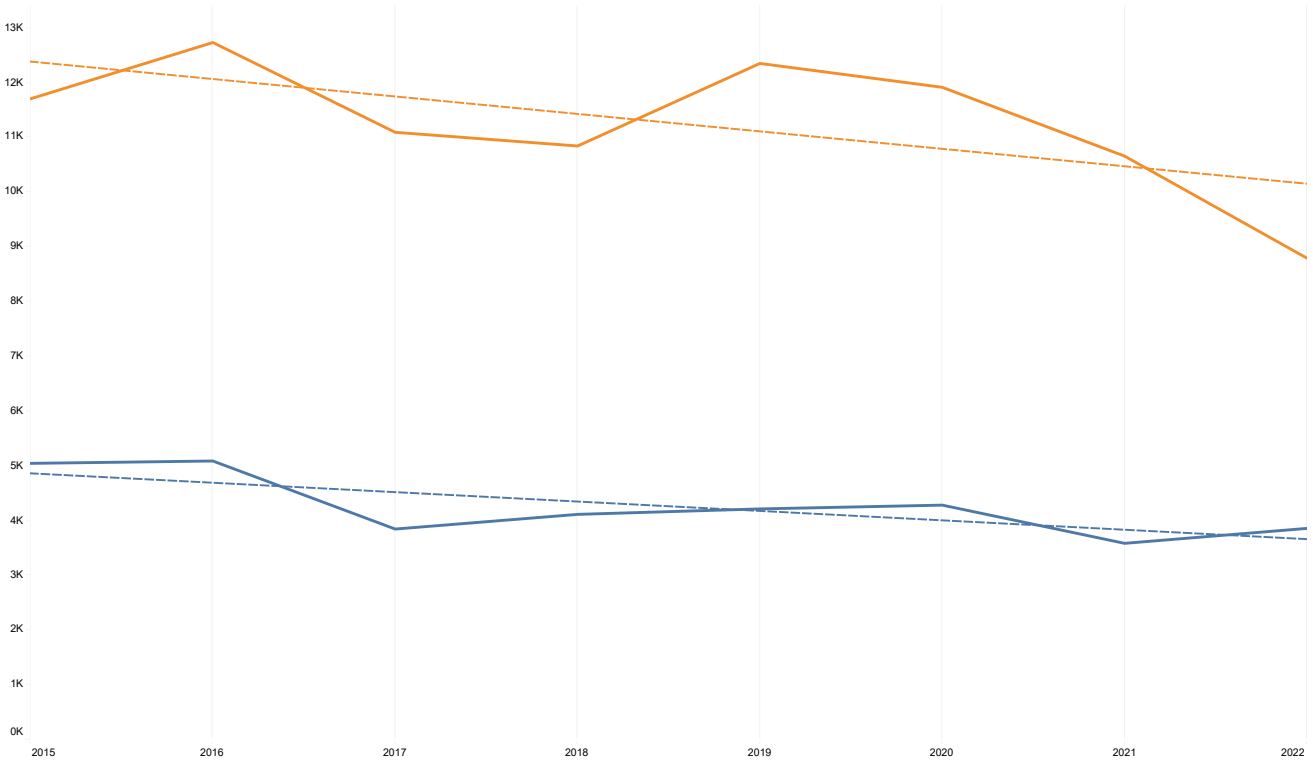

Doug Rusch,
Managing Director,
Rouse Sales

On the retail used equipment market...

"Retail sales volume in 2022 was down approximately 17% compared to 2021. Recently, we saw retail prices begin to decline in Q4, however price levels are still higher than prior year—up 17% vs. 2021."

Large Earthmoving Volumes

Large Earthmoving

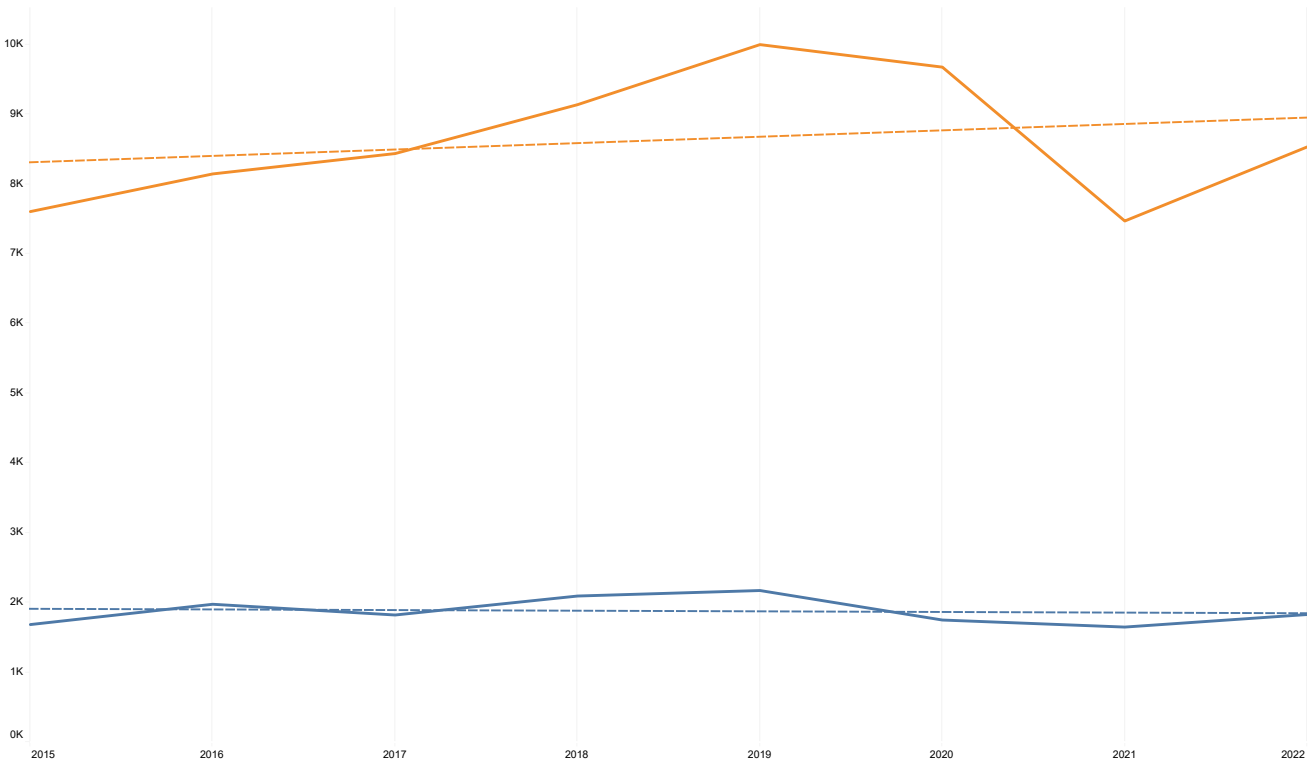

The trend of sum of Lots Items Sold for Year. Color shows details about Auction Item Country. The context is filtered on Asset Item Manufacturer A List, Date D, Month Name, Quarter, RBA Asset Group Full and RBA Asset Primary Industry. Retail sales volume in December continued to run behind prior year levels. For the calendar year, we saw 17% fewer units sold at retail in 2022 vs. 2021.

Retail values have started to erode a bit from the record highs we saw in Q3 2022. Values fell 0.8% in December; however, even amidst the modest downward pressure of late, values still remain 17% higher than price levels from this time last year.

Rouse Retail Value Index

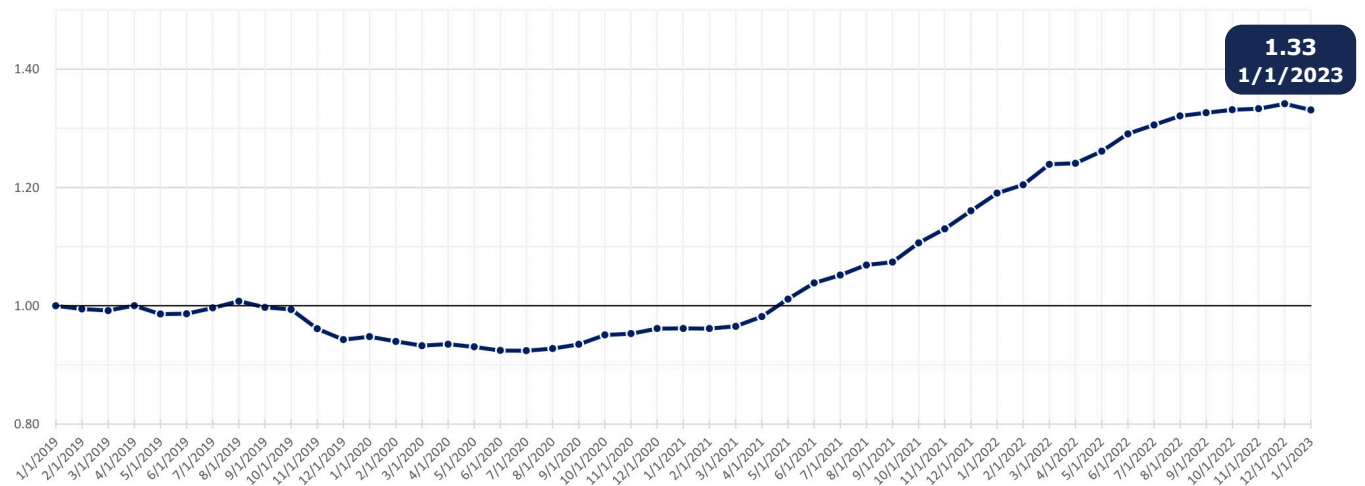

Major equipment categories only Used equipment (3-8 yrs old), USA only

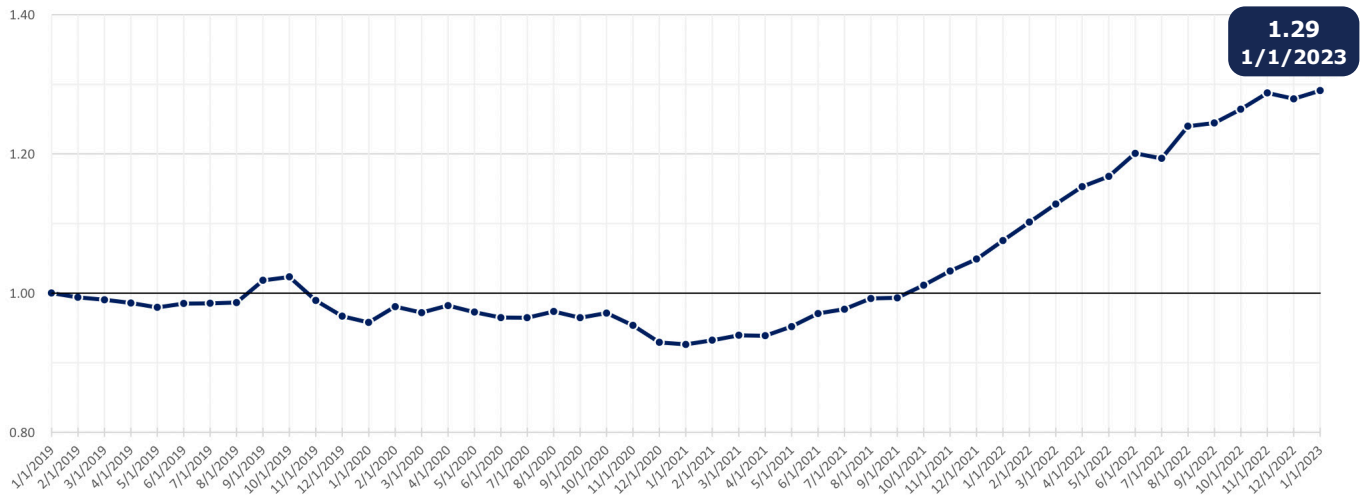

Retail Index: Earthmoving - Heavy

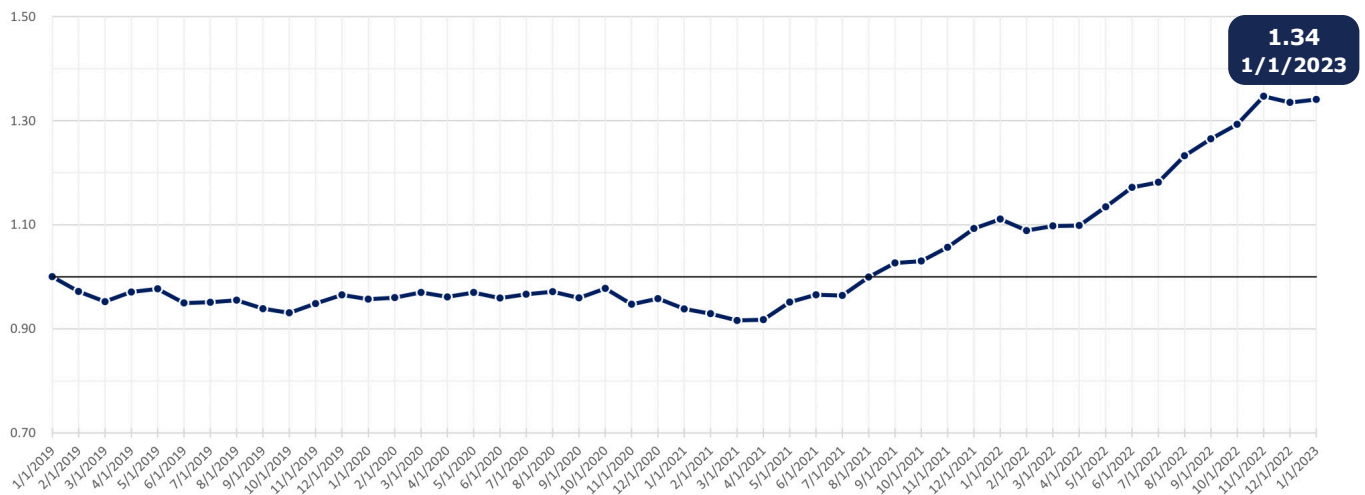

Retail Index: Earthmoving - Medium

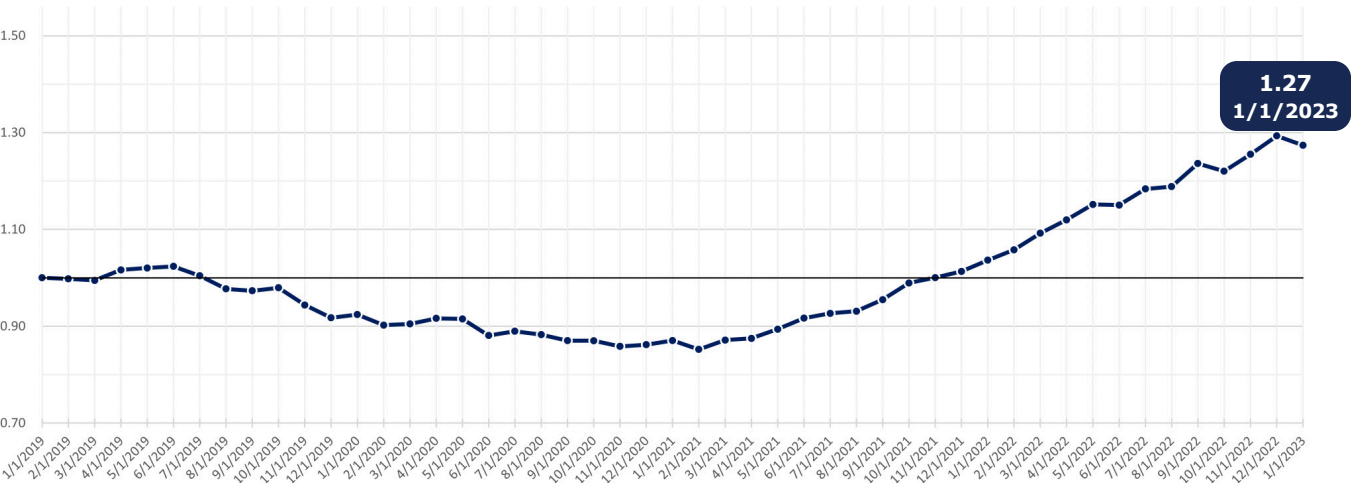

Retail Index: Aerial

Retail Index: Forklift Trucks

Retail Index: Telehandlers

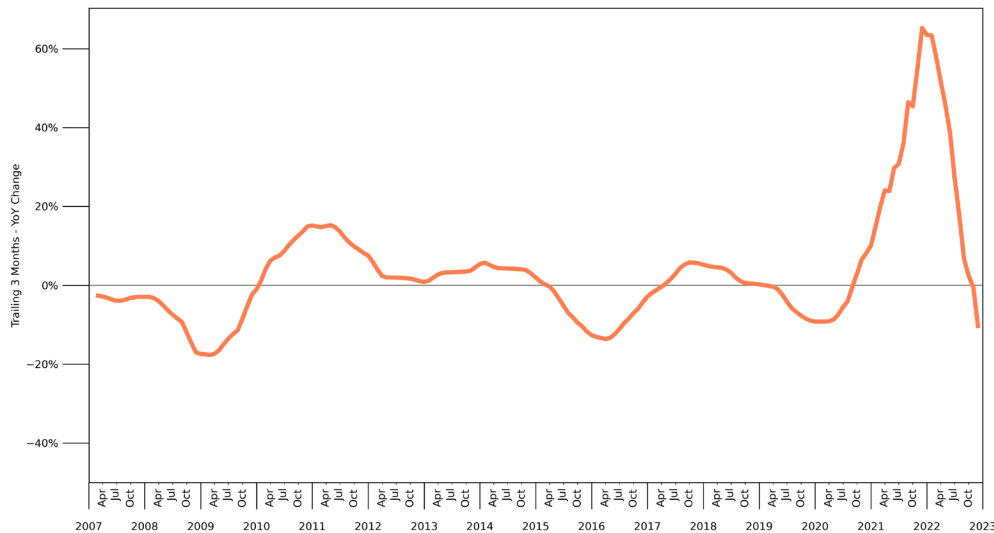

Ritchie Bros. Price Indexes

There is still ongoing price inflation in Canada across most indexes, with the highest inflation rate for agriculture tractors (+16%) and agriculture (+10%).

In the United States, 10 out 15 indexes have inflation rates less than zero, including aerial, composite, construction, excavators, forklifts, medium earth moving, skid steers, transportation, truck tractors, and vocational trucks. Only agriculture and agriculture tractors show a positive inflation rate, of approximately +1%.

Truck Tractors & Vocational Trucks – U.S.

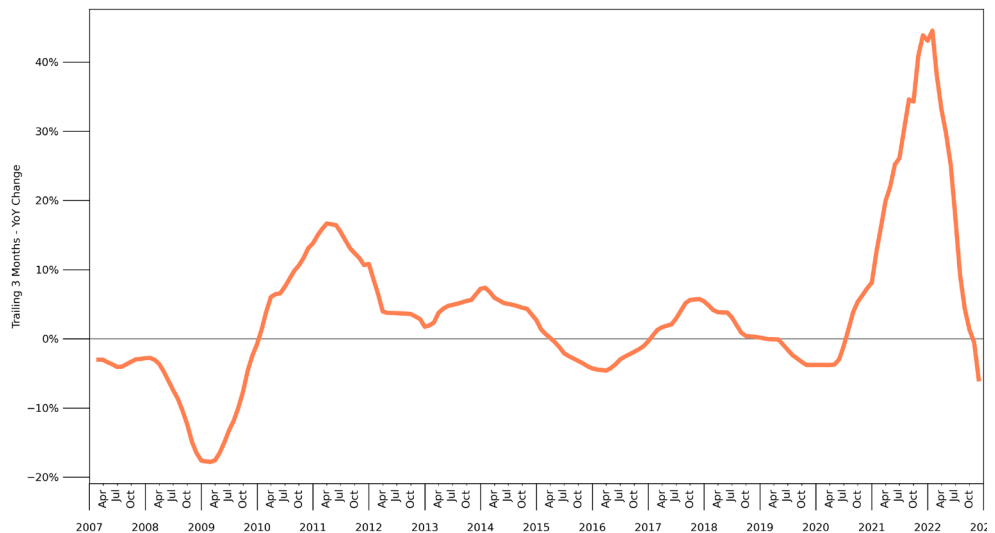

Truck tractors

In our estimation, for the 3 months ending December 31, 2022, prices for truck tractors decreased 10% compared to the same time last period year.

Truck tractors (S/A, T/A, Tri/A)

Vocational trucks

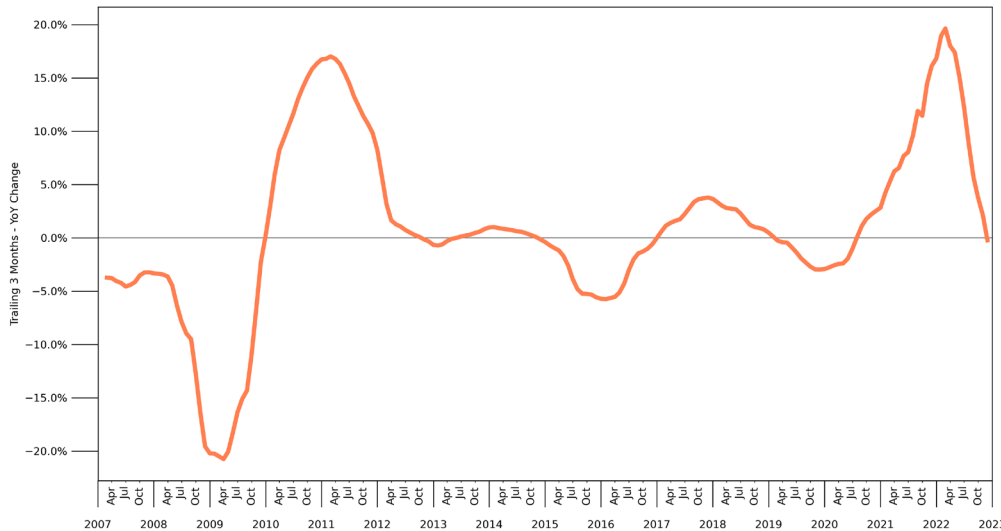

In our estimation, for the 3 months ending December 31, 2022, prices for vocational trucks decreased 6% compared to the same time last period year.

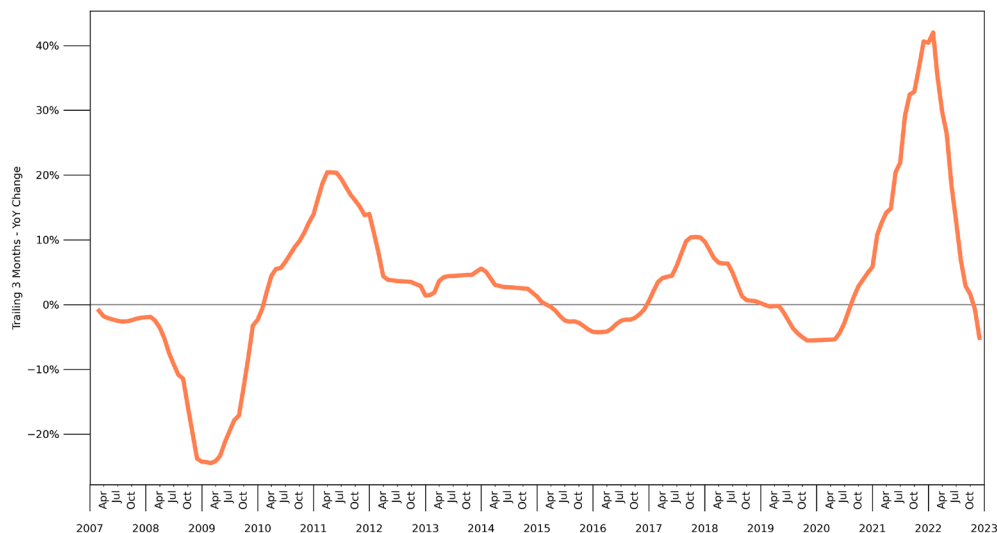

Flatbed Trucks, Dump Trucks (S/A, T/A, Tri/A, Quad/A), Mixer Trucks (S/A, T/A, Tri/A, Quad/A), Van & Reefer Trucks, Mechanics Trucks, Utility Trucks

Margin of error is +/- 1.5%

Large & Medium Earthmoving Equipment – U.S.

Aerial Equipment – U.S.

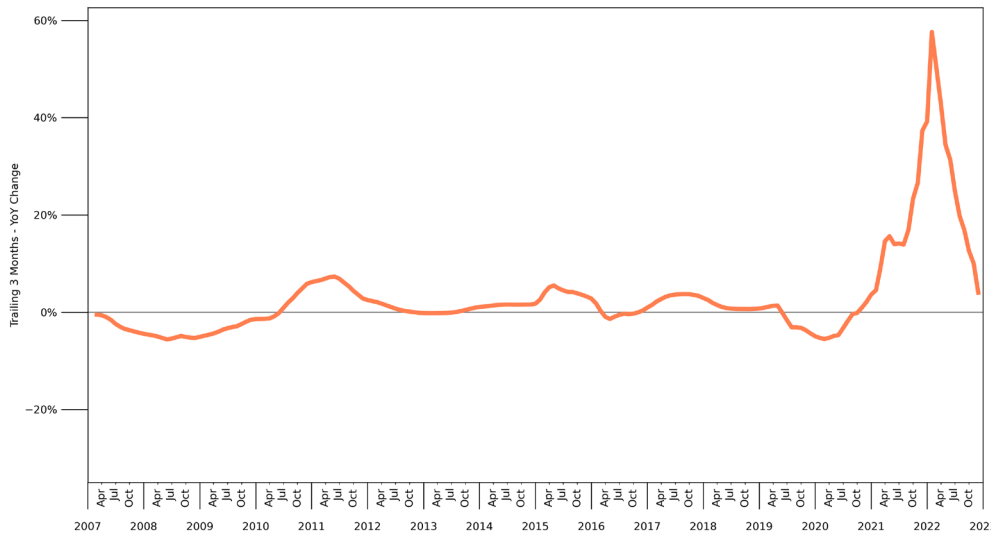

Aerial equipment

In our estimation, for the 3 months ending December 31, 2022, prices for aerial equipment decreased 5% compared to the same time last period year.

Scissor Lifts, Boom Lifts, Telehandlers

Margin of error is +/- 1.5%

Truck Tractors & Vocational Trucks – Canada

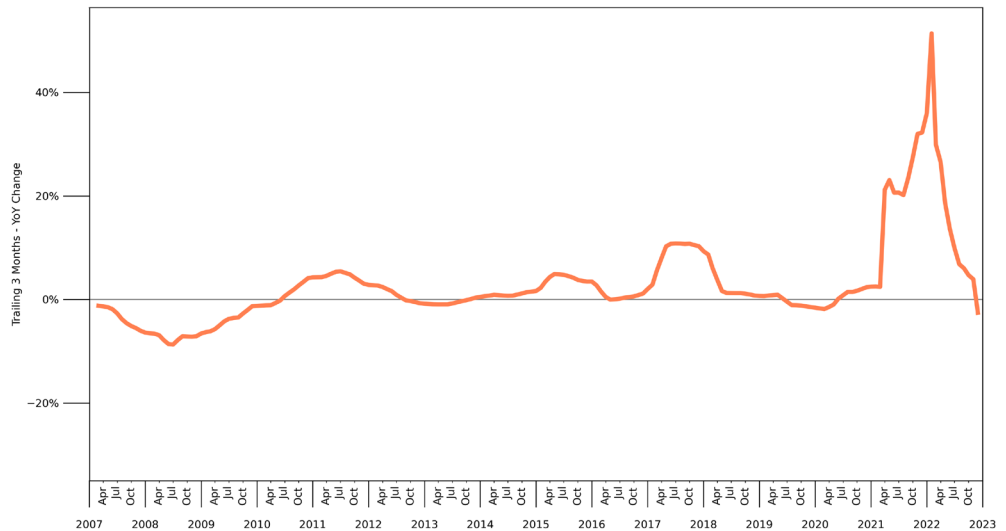

Truck tractors

In our estimation, for the 3 months ending December 31, 2022, prices for truck tractors increased 4% compared to the same time last period year.

Truck tractors (S/A, T/A, Tri/A)

Vocational trucks

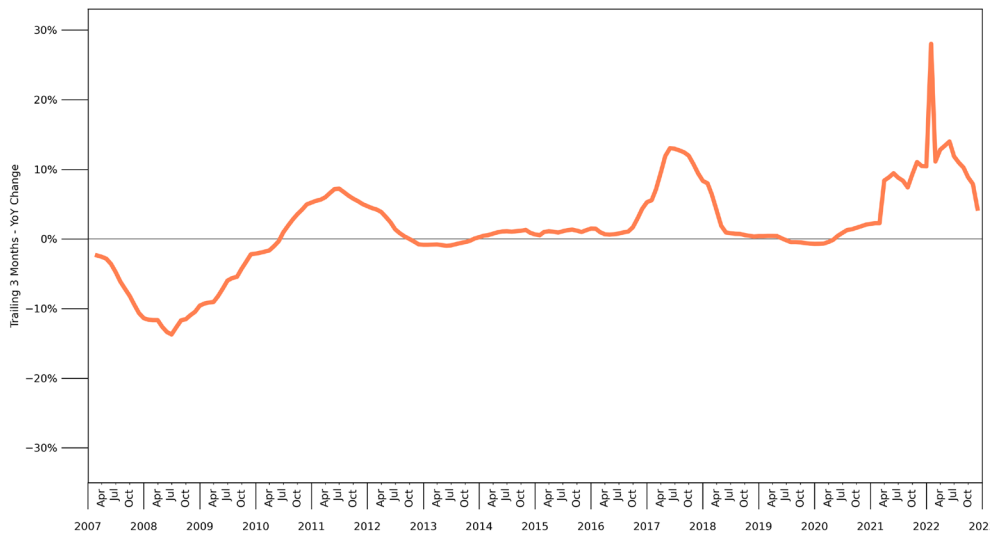

In our estimation, for the 3 months ending December 31, 2022, prices for vocational trucks decreased 3% compared to the same time last period year.

Flatbed Trucks, Dump Trucks (S/A, T/A, Tri/A, Quad/A), Mixer Trucks (S/A, T/A, Tri/A, Quad/A), Van & Reefer Trucks, Mechanics Trucks, Utility Trucks

Margin of error is +/- 1.5%

Large & Medium Earthmoving Equipment – Canada

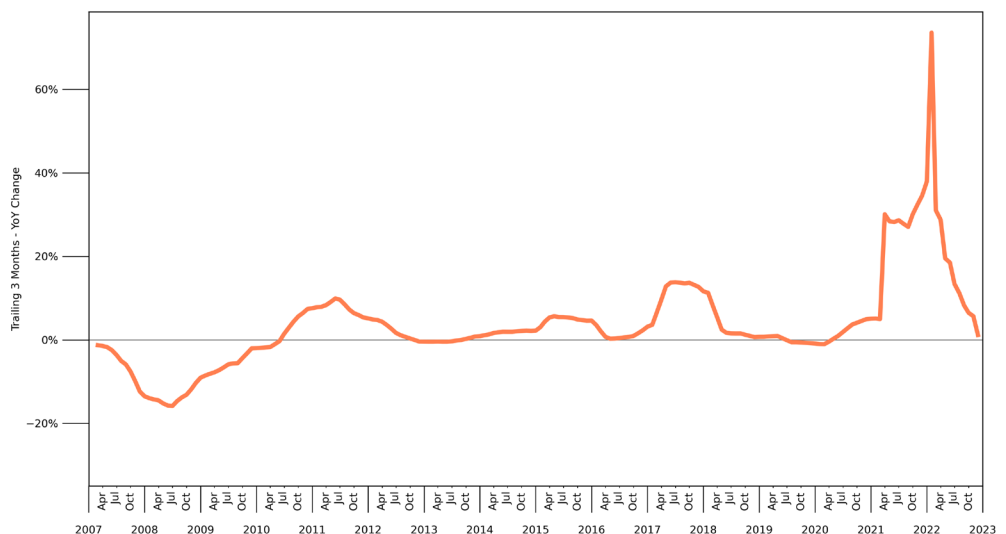

Large earthmoving equipment

In our estimation, for the 3 months ending December 31, 2022, prices for large earthmoving equipment increased 4% compared to the same time last period year.

Excavators, Dozers, Wheel Loaders, Backhoe Loaders, Articulated Dump Trucks, Motor Graders, Scrapers, Wheel Excavators, Wheel Dozers, Track Loaders, Soil Compactors

Medium earthmoving equipment

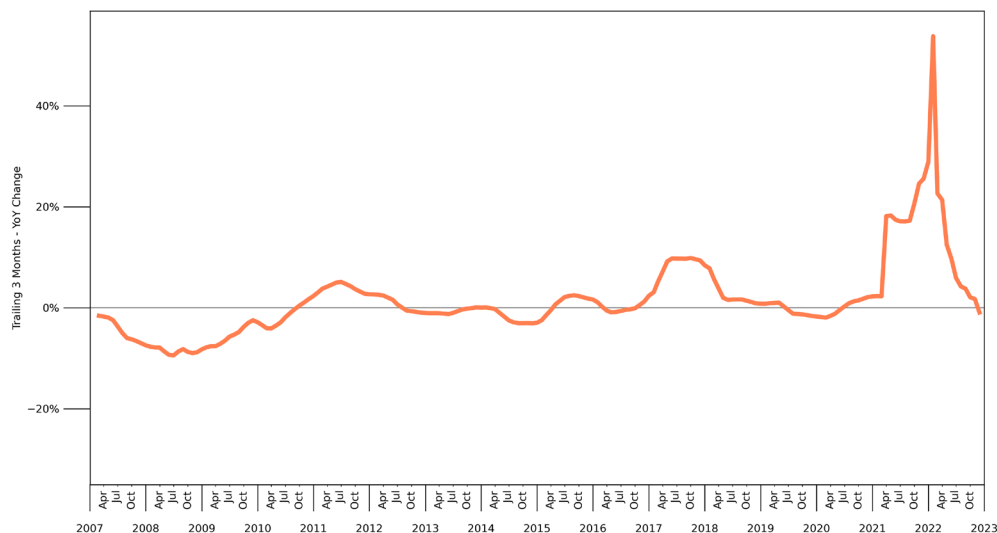

In our estimation, for the 3 months ending December 31, 2022, prices for medium earthmoving increased 1% compared to the same time last period year.

Skid Steer Loaders, Compact Track Loaders, Micro Excavators, Mini Excavators, Midi Excavators

Margin of error is +/- 1.5%

Aerial Equipment – Canada

Aerial equipment

In our estimation, for the 3 months ending December 31, 2022, prices for aerial equipment decreased 1% compared to the same time last period year.

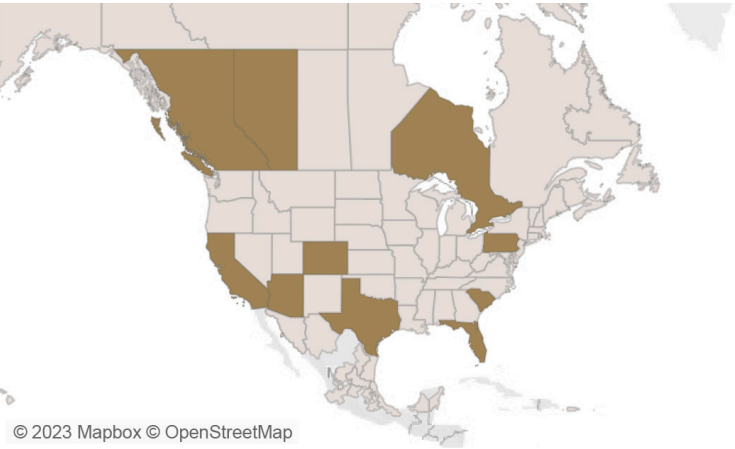

Scissor Lifts, Boom Lifts, Telehandlers

Margin of error is +/- 1.5%

GLOBAL BUYER DEMAND

No one drives global demand & buyer confidence like Ritchie Bros.

More qualified buyers

We're leaders in multi-channel
marketing with the industry's
largest active buyer base.

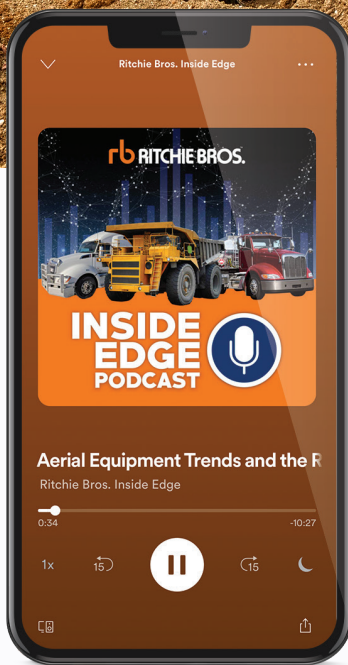

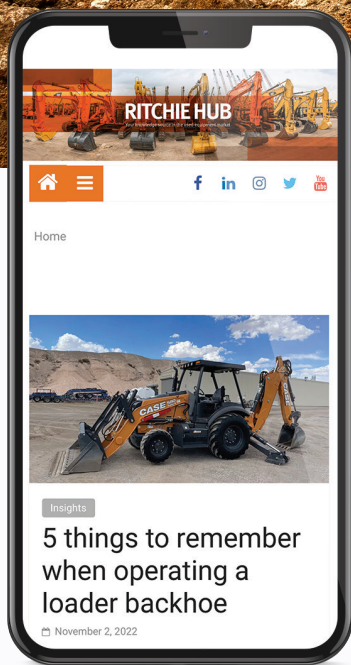

More committed buyers

Detailed inspections,
videos, warranties, insurance,
and the Ritchie Bros. name,
deliver confident buyers.

More funded buyers

Our buyers bring +\$50B
in purchasing power,
plus easy financing from
Ritchie Bros. Financial Services.

We're doubling down!

Two more ways to get insight into the equipment market

We launched a new podcast and blog to deliver even more data, articles, and industry insights to our customers.
